Abortion Pill Reversal

When the FDA expanded access to the abortion pill in 2021, we saw a 60% increase in calls from women who took the pill - and regretted it. Five of those women successfully reversed the effects of their abortions. Learn more at wellspringlife.org/services.

“ I am so blessed to have [the Clinic] in my life because our son has brought so much happiness to our lives. He wouldn't be here without your help.” ~ Alana, APR client

LifeSense

In 2021, LifeSense Education classes were offered in-person and online. Plus, we offered a Spanish-language option for our popular Labor and Delivery class and introduced a new class to parents: Say Goodbye to Diapers.

“ I've learned so much from the free class. The teacher was very knowledgeable and answered all of my questions. I really feel as though they helped prepare me mentally for what's to come in Labor & Delivery and I feel confident about my choices now.” ~ Treena, LifeSense student

Post-Abortion Support

Four women and two men found healing from a past abortion in 2021 as part of a Post-Abortion Bible Study. These small, confidential groups, led by highly-trained volunteers, are designed to minister to those who have been wounded by a past abortion. Healing is possible; for more information, visit wellspringlife.org/services.

OUR Volunteers

“ I love having the opportunity to play a part in bringing hope to women in crisis.” ~ Katie, volunteer counselor

“ I love that the clinic offers me weekly opportunities to sit with people, hear their stories, ask good questions and offer the truth in love. [As a sonographer] I get to show men and women the truth as they see their babies with their own eyes.” ~Shayna, volunteer sonographer.
