Lizzie

“Lizzie” thought her life was going great: she had a job that she liked, a “dependable” car, and was dating a nice guy. But then a positive pregnancy test disrupted everything. How could she afford a baby? Would her boyfriend support her? Was she ready to be a mom? Her mind reeling, she searched online for help and found the Women’s Clinics, and made an appointment for the following day.

There Lizzie met with a caring, compassionate counselor and was able to share her fears and concerns. Then, the offer of a free sonogram changed everything.

“The sonographer gave me great advice, and seeing the baby on the screen made me feel reassured about so many things I was worried about. The ultrasound helped me make my decision. I’m excited to be a mom.”

Stacy

“Stacy” had taken the abortion pill, thinking it was an easy answer to her unexpected pregnancy - then almost immediately regretted her decision. Desperate to try to save her baby, she searched online and found abortion pill reversal offered at the Women’s Clinics.

“I am grateful for the [Women’s Clinic]. I was able to get an appointment right away. I could tell that their team truly cared about me and my baby. The sonogram showed my baby was still alive and with their help and the APR medication, they were able to save my baby! I’m so grateful for everything.”

Takesha

“Takesha” had been without insurance for a while and - as a result - hadn’t had an annual exam for several years. When she learned that the Women’s Clinic offered women’s wellness visits at completely no cost, she jumped at the chance to get an appointment.

During her exam, Takesha had a well woman visit, breast exam, and PAP test - all at no cost to her. More importantly, she had one on one time with a nurse practitioner who answered all of her questions and discussed her health concerns from a holistic viewpoint, considering her physically, emotionally and spiritually.

“I really appreciated their holistic approach to women’s wellness and health. The staff seemed genuinely interested in me and my needs.”
